 - Develop a Sample Application to demonstrate how to use the SDK and write a document guide for it.
 - Collaborate with other members to develop a Sample Application for Samsung Development Conference 2017.
- **Share screen between Mobile and Web using WebRTC:**
 - **Project Description:**
 - Develop an Android Application, a Signaling Server and a Web Application for sharing Mobile's screen to the Web.
 - Besides, User can control the Mobile through the Web.
 - **Responsibilities:**
 - Examine a Repository on Github,
 - Then, customize it for the project's purpose.
 - Mentor a group of 3 trainee students to complete this project.
- **Open Theme Web Editor**
 - **Project Description:**
 - Develop a Web Application which is alternative for Samsung Theme Editor for Windows and MacOS.
 - **Responsibilities:**
 - Communicate with a team developed Samsung Theme Editor for Windows to understand all functionalities,
 - Collaborate with a server team, that provides Restful APIs for the Web Application.
 - Design data and application structure,
 - Develop the application.

PASTIMES AND ACTIVITIES

- I am keen on reading IT blogs, Medium and self-help ebooks in my free time,
- Besides, I enjoy instrument musical. So I self-learn to play Ukulele and can perform some simple songs.
- And, I like Street Workout. I workout at least four times a week to get fit and healthy.
- My other hobby is blogging. So I often write technical blogs to share my experience to other developers, as I am the author of Vietnamese IT blogs, which are: completejavascript.com and thuattoan.phamvanlam.com.
- Last but not least, I also work on some side projects.
And they can be found at my online portfolio about.phamvanlam.com and my Google Play Store <https://play.google.com/store/apps/developer?id=LamPV>.
